

Show your true colors with MaraJet

MaraJet DI-MS & DI-JVP are high-quality alternative inks for Mimaki® wide-format solvent printers. A perfect color match allows users to simply install MaraJet into their printer when their current cartridges are empty. MaraJet inks offer outstanding performance and value for your printing needs by combining excellent light fastness, vivid color density and a wide color gamut.

Benefits

- **Perfectly matched color shades**
Plug & Print change over without the need to adjust the color profiles.
- **Scratch & chemical resistance**
MaraJet's durability allows easy handling even on inexpensive substrates.
- **Mild, low-odor solvents**
User friendly
- **High quality pigments & brilliance**
Long outdoor life and vibrant color density.
- **Lower costs**
Save money on your ink without giving up quality.

Compatible Models

MaraJet DI-MS compatible models:

Mimaki JV33/JV34, JV300, JV5 and CJV-30

MaraJet DI-JVP compatible models:

Mimaki JV3

Applications

Compatible substrates for MaraJet DI-MS and MaraJet DI-JVP include: pressure-sensitive vinyl, banner media, cast vinyl, other coated substrates like tarpaulin and suitable papers. 3 years of durability can be achieved on corresponding high grade films thanks to MaraJet's high quality pigments. Additional outdoor durability can be achieved using ClearShield Liquid Coatings.

Unbeatable Support

Marabu has been developing and manufacturing inks and liquid coatings for over 150 years. We are aware of the issues that customers face when they choose not to use the ink provided by their printer manufacturer and we are prepared to help you succeed. MaraJet is backed by our 100% customer satisfaction money back guarantee.
